

R-RC-NC1 Тележка для транспортировки чемодана RawlCase

[Russian]: Transport trolley with a lifting capacity of 120 kg dedicated to transporting RawlCase system suitcases

Информация о продукте

Свойства и преимущества

- [Russian]: 49 x 36 cm profiled foot and strong rubber cable prevent RawlCase system cases from slipping during transport
- [Russian]: Large rubberized wheels with a diameter of 17 cm, facilitate driving up in difficult construction conditions
- [Russian]: The metal construction provides a high payload that can transport cases weighing up to 120 kg
- [Russian]: Foldable wheels and handle allow the transport trolley to be stored in a small area

Применение

- [Russian]: Designed for transporting RawlCase system cases
